PROCEDURE STEP BY STEP

1. Measure fat fold.

2. Apply Protective wipe.

3. Set treatment applicators to freeze.

4. Relax during your treatment session

How long does a CRISTAL® session last?

A session with the Cristal® takes 60 minutes per zone. You can choose to enjoy your session by reading or listening to music.

Can I carry on with my normal activities after a session?

There is no downtime required after treatment with the Cristal®, as it is non-invasive. You can continue with your normal activities immediately after the session.

When will I see results?

There are no immediate results, as the fat cells are gradually eliminated by the immune system. You will begin to see results at about 6-10 weeks after the treatment and you will continue to lose fat in the treated area during the following months.

How many sessions are needed?

The results vary from patient to patient, but it is generally recommended to conduct one to two sessions to get the results you desire.

Is the CRISTAL® treatment for you?

Yes, if you are looking for a gentle and effective method to safely harmonise your natural shape.

Yes, if you are looking for a comfortable method for losing your unsightly fat rolls.
