

 Ultherapy[®]

KICKSTART YOUR COLLAGEN WITH ULTHERAPY[®]

MERZ AESTHETICS

*Kirsty Gallacher,
Ultherapy[®] Brand Ambassador*

PATIENT BROCHURE.

LIFTED, TIGHTER SKIN WITHOUT SURGERY. IS THAT TOO MUCH TO ASK? NOT WITH ULTHERAPY®.

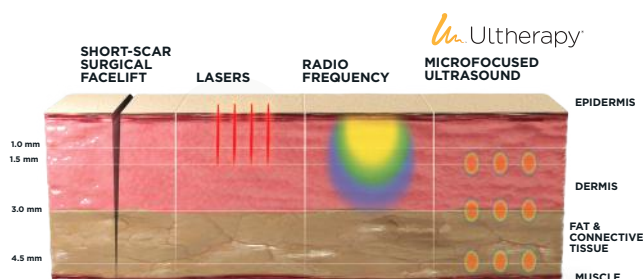

Collagen is a natural protein that gives skin its youthfulness by keeping it firm and toned. As we age, collagen breaks down and the result is a loss of skin strength and elasticity. But there's no need to fear - Ultherapy® is here!

Ultherapy® goes deeper than any other non-invasive treatment to boost your body's own collagen. The results can make skin appear lifted, tightened and youthfully rejuvenated.

LEARN HOW ULTHERAPY® STEPS IN AND LIFTS UP.

Through time-tested ultrasound technology, Ultherapy® generates a thermal effect under the skin without disrupting the surface. This effect essentially jump-starts your body's own process to create fresh, new collagen.

We understand you are unique. That is why Ultherapy® uses ultrasound imaging to precisely see your layers of tissue, allowing your practitioner to customise your treatment, using just the right amount of energy at just the right depths and temperature. This ensures energy is delivered to the areas most beneficial for you.

- The Gold standard treatment for non-surgical lifting and skin tightening
- Treats brow, jawline, under the chin, neck and décolletage
- Treatment duration from 30 minutes with little to no downtime
- After just one treatment, results can last over a year
- Only treatment of its kind to be FDA cleared

“Leaves you feeling naturally refreshed, it's still you but on a really good day”

*Kirsty Gallacher,
Ultherapy® Brand Ambassador*

GO FOR GOLD

WIN THE FIGHT AGAINST AGEING.

Ultherapy® has been recognised as the Gold Standard in non-surgical skin lifting and tightening by a panel of expert aesthetic practitioners, based on three relevant factors:

- **How it works**
- **Its large body of clinical evidence**
- **The high level of patient satisfaction**

As Ultherapy® strengthens the foundations of the skin with new collagen, the experts also claim Ultherapy® improves the effectiveness of other aesthetic treatments. Accordingly, Ultherapy® has been appointed as a key pillar to multi aesthetic treatment regimes.

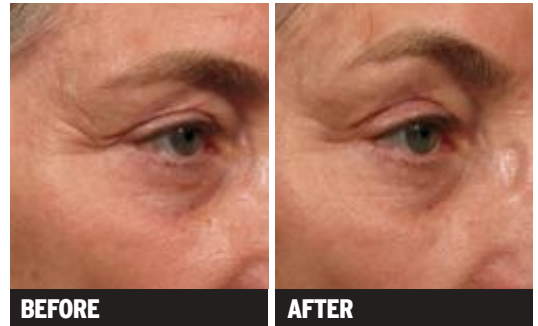

Ultherapy® continues to be recognised with industry awards, year after year!

NATURAL-LOOKING AND NOTICEABLE RESULTS.

Research found that Ultherapy® treatment increased the rate of collagen production by an average of 42%

Brow

Chin

Neck

FREQUENTLY ASKED QUESTIONS.

When will I see results? How long will they last?

The ultimate results will take place over 2-3 months, as the growth of new collagen and elastin replaces old tissue targeted by the treatment. A single Ultherapy® treatment can give a lasting effect for over a year. Individual results may vary.

How long does a treatment take?

The length of the treatment will depend on the area being treated and your individual treatment plan. A face and neck treatment takes approximately 60-90 minutes, while a décolletage (chest) treatment takes approximately 30 minutes. Plus, as it is non-invasive, generally there is no downtime - so you can get back to your activities straight away.

Is Ultherapy® safe?

The Ultherapy® procedure has been used in over 1,500,000 treatments worldwide. Every Ultherapy® practitioner receives extensive procedural training so you can feel confident in choosing the procedure. Ultherapy® is the only microfocused ultrasound with visualisation (MFU-V) technology that has been FDA cleared and CE Mark certified.

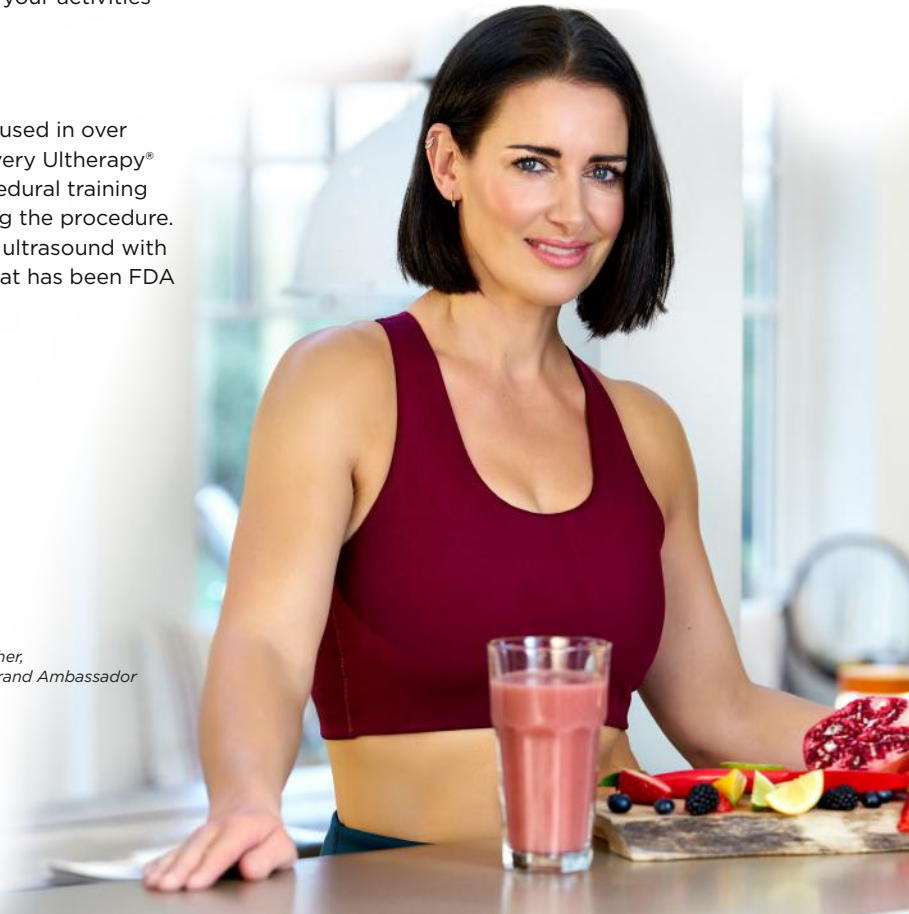

What does the Ultherapy® treatment feel like?

As the ultrasound energy is delivered, you may feel tiny amounts of energy being deposited to precise depths, stimulating the collagen-building process. Comfort levels vary from person to person, but the sensation typically only lasts while the ultrasound energy is being delivered.

Where can I find out more about Ultherapy®?

Please consult a qualified, authorised medical practitioner who will advise the most appropriate treatment for you and visit www.ultherapy.co.uk
